## **Forward Looking Statements**

This presentation contains certain statements that are, or may be deemed to be, "forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended". All statements, other than statements of historical facts, included herein are "forward-looking statements." Included among "forward-looking statements" are, among other things:

statements regarding our ability to pay distributions to our unitholders;

statements regarding our expected receipt of cash distributions from Sabine Pass LNG, L.P.;

 statements regarding future levels of domestic natural gas production, supply or consumption; future levels of liquefied natural gas imports into North America; sales of natural gas in North America or other markets; exports of LNG from North America; and the transportation, other infrastructure or prices related to natural gas, LNG or other energy sources;

 statements regarding any financing or refinancing transactions or arrangements, or ability to enter into such transactions or arrangements, whether on the part of Cheniere Energy Partners, L.P. or any subsidiary or at the project level;

statements regarding any commercial arrangements presently contracted, optioned or marketed, or potential arrangements, to be performed substantially
in the future, including any cash distributions and revenues anticipated to be received and the anticipated timing thereof, and statements regarding the
amounts of total LNG regasification, liquefaction or storage capacity that are, or may become, subject to such commercial arrangements;

statements regarding counterparties to our commercial contracts, construction contracts and other contracts;

 statements relating to the construction and operations of our proposed LNG liquefaction facilities, including statements concerning the completion by certain dates or at all, the costs related thereto and certain characteristics, including amounts of liquefaction capacity and storage capacity and the number of LNG trains;

 statements that we expect to receive an order from the Federal Energy Regulatory Commission authorizing us to construct and operate our proposed liquefaction facilities by certain dates, or at all;

 statements regarding any business strategy, any business plans or any other plans, forecasts, projections or objectives, including potential revenues and capital expenditures, any or all of which are subject to change;

statements regarding projections of revenues, expenses, earnings or losses, working capital or other financial items;

 statements regarding legislative, governmental, regulatory, administrative or other public body actions, requirements, permits, investigations, proceedings or decisions; and

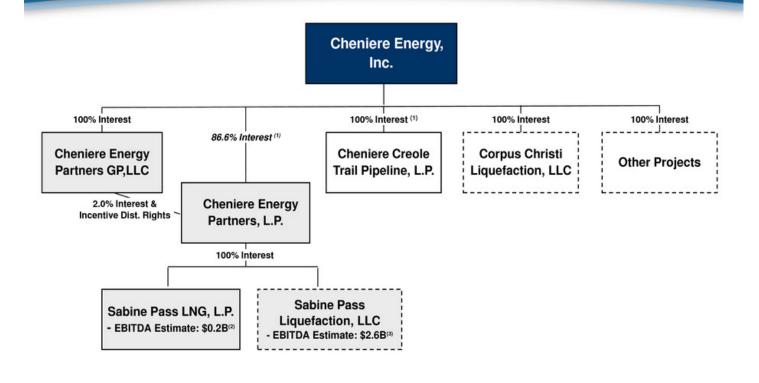

any other statements that relate to non-historical or future information.

These forward-looking statements are often identified by the use of terms and phrases such as "achieve," "anticipate," "believe," "contemplate," "develop," "estimate," "example," "expect," "forecast," "opportunities," "plan," "potential," "project," "propose," "subject to," and similar terms and phrases. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve assumptions, risks and uncertainties, and these expectations may prove to be incorrect. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this presentation. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of a variety of factors, including those discussed in "Risk Factors" in the Cheniere Energy Partners, L.P. Annual Report on Form 10-K filed with the SEC on February 24, 2012, which are incorporated by reference into this presentation. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these "Risk Factors". These forward-looking statements are made as of the date of this presentation, and we undertake no obligation to publicly update or revise any forward-looking statements.

2

## Cheniere Including Sabine Pass Liquefaction Project ("SPL")

(1) Represents current ownership interest, prior to the financing of the SPL project and CQP's purchase of the Creole Trail pipeline.

(2) EBITDA estimate for 2017 based on existing TUAs with Chevron and Total.
 (3) EBITDA estimate for 2017 based on expected cash flows from four liquefaction trains.

Note: Estimates represent a summary of internal forecasts, are based on current assumptions and are subject to change. Actual

performance may differ materially from, and there is no plan to update, the forecast. See "Forward Looking Statements" cautions.

## Financial Forecast Summary including Sabine Pass Liquefaction Project

Expected Construction Costs – SPL<sup>(1)</sup>

- Trains 1 & 2: \$4.5B to \$5.0B
   Trains 2 & 4: \$4.5B to \$5.0B
- Trains 3 & 4: \$4.5B to \$5.0B

Current Debt

CQP: \$2.2B
 LNG: \$0.5B<sup>(2)</sup>

Estimated EBITDA - including	<ul> <li>Total: \$2.7B<sup>(3)</sup></li> <li>90% from long-term fixed</li></ul>
SPL	contracts with investment-grade
	customers

(1) Expected construction costs before financing costs. SPL has entered into a lump-sum turnkey EPC contract with Bechtel for Phase 1 of the liquefaction project (Trains 1 and 2). (2) Debt includes 2008 loans and convertible senior unsecured notes due 8/1/12.

(3) EBITDA is computed as total revenues less non-cash deferred revenues, operating expenses, assumed commissioning costs and state and local taxes. It does not include depreciation expenses and cortain non-operating items. Because we have not forecasted such depreciation expenses and non-operating items, we have not made any forecast of net income, which would be the most directly comparable financial measure under generally accepted accounting principles, or GAAP. As a result, we are unable to reconcile differences between forecasts of EBITDA and net income.

Note: Estimates represent a summary of internal forecasts, are based on current assumptions and are subject to change. Actual performance may differ materially from, and there is no plan to update, the forecast. See "Forward Looking Statements" cautions.

## Proposed SPL Project: Development Utilizing Existing Assets

## **Current Facility**

- ~1,000 acres in Cameron Parish, LA
- 40 ft ship channel 3.7 miles from coast
- 2 berths; 4 dedicated tugs
- 5 LNG storage tanks (17 Bcf of storage)
- 4.3 Bcf/d peak regasification capacity
- 5.3 Bcf/d of pipeline interconnection to the US pipeline network

#### Liquefaction Expansion

- LSTK EPC contract w/Bechtel for Trains 1 & 2
- Up to four liquefaction trains designed with ConocoPhillips' Optimized Cascade® Process technology
- Six GE LM2500+ G4 gas turbine driven refrigerant compressors per train
- Gas treating and environmental compliance
- Modifications to the Creole Trail Pipeline for bidirectional service
- Sixth tank if needed for fourth train

Significant infrastructure in place including storage, marine and pipeline interconnection facilities; pipeline quality natural gas to be sourced from U.S. pipeline network

# **CQP to Purchase Creole Trail Pipeline**

- CTPL infrastructure is critical to purchasing gas & providing Liquefaction services
- CQP to purchase CTPL for \$300MM cash plus 12MM Class B Units
   CEI to use proceeds to pay down debt and for general corporate purposes
- Sabine Pass Liquefaction & CTPL to enter into a Firm Transport Service Agreement
  - ~\$80MM annual payments to CTPL after in-service of Liquefaction Train 1

#### **Current Facility**

- Delivery from SPLNG: 2.0 Bcf/d
- Diameter: 42-inch
- Length: 94 miles
- Interconnects: NGPL, Transco, TGPL, FGT, Bridgeline, Tetco, Trunkline

#### **Pipeline Modifications**

- Reconfigure for bi-directional flow
- One new compressor station with three new units
- Two new meter stations
- Modification of existing meter stations
- Est. ~\$90MM capital cost
- Delivery to SPLNG: 1.5 Bcf/d
- Est. in-service: 4Q2014 4Q2015

# **Progress on Liquefaction Project**

## Trains 1 & 2: Obtaining financing is last step prior to commencing construction Trains 3 & 4: Commercial contracts complete

	Target Date			
Milestone	Trains 1 & 2	Trains 3 & 4		
<ul> <li>DOE export authorization</li> </ul>	✓	$\checkmark$		
<ul> <li>Definitive commercial agreements</li> </ul>	✓	$\checkmark$		
<ul> <li>EPC contract</li> </ul>	✓	4Q12

Source: Advanced Resource Intl; Cheniere Research.

Source: EIA, US Crude Oil, Natural Gas and Natural Gas Liquids Proved Reserves, 2009.

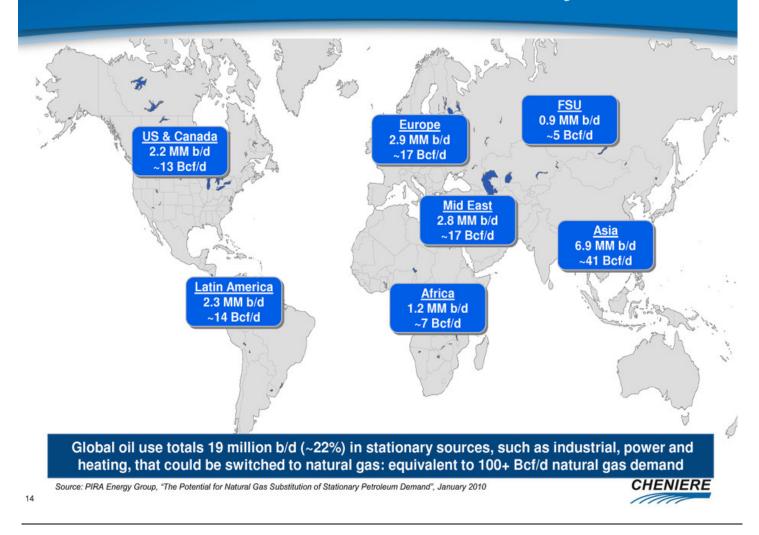

11111

 Current market fundamentals in the U.S. – increased production, increased natural gas reserves and lackluster increase in natural gas demand – have created an opportunity to expand into exports – benefitting U.S. economy, creating jobs and reducing balance of trade
 CHENIERE

13

# **Global Petroleum Demand – Stationary Sources**

# **Liquefaction Project Financing Options**

## Trains 1 & 2

- Debt: project finance market and Term Loan B market
  - \$2.5B bank debt
  - \$2.0B Term Loan B
    - \$1.25B @ Liguefaction for the Liguefaction Project
    - \$0.75B @ CQP for the Creole Trail Acquisition
  - ~\$1.0B of EBITDA from customers
  - ~\$100MM \$200MM potential EBITDA from marketing activities
- Equity: ~133.3MM newly formed Class B units at \$15/unit
  - \$1.5B equity commitment with Blackstone<sup>(1)</sup>
  - \$0.5B equity commitment with Cheniere Energy, Inc. (raised on May 7, 2012 from equity offering with Temasek and RRJ Capital)
  - 3.5% guarterly accretion rate; convert into common units at completion of Train 3

## Trains 3 & 4

- Debt: term loans/bonds
  - ~\$1.4B of EBITDA for coverage
- Equity: optional

## Trains 1 – 4 total expected EBITDA = ~\$2.6 B

(1) The closing of the Financing is subject to, among other things, the execution of definitive documents, receipt of regulatory approvals required to permit commencement of construction of the Liquefaction Project, closing of the purchase of the Creole Trail pipeline, closing of the debt financing for the first two trains and other conditions necessary to complete the transacti CHENIERE Note: The above represents potential financing options. Estimates represent a summary of internal forecasts, are based on current assumptions and are subject to change. Actual performance may differ materially from, and there is no plan to update, the forecast. See "Forward Looking Statements" cautions

## Summary Steady State Cash Flows Trains 1 & 2

(\$ in millions)	SPLNG	CTPL	SPL <sup>(4)</sup>
Contracted payments	\$250		\$980
Other cash received	10	-	130
Operating expenses <sup>(1)</sup>	(50)	(20)	(150)
EBITDA before intercompany	\$210	(\$20)	\$960
Intercompany TUA payments <sup>(2)</sup>	265	_	(140)
Creole Trail Pipeline fees	. <del></del> s	80	(80)
EBITDA <sup>(3)</sup>	\$475	\$60	\$740

Includes operating expenses, management fees, maintenance expenditures and marketing costs associated with purchasing gas.

(2) TUA payments to SPLNG to increase from original \$250MM per year for inflation indexation and cargo loading fees.

(3) EBITDA is computed as total revenues less non-cash deferred revenues, operating expenses, assumed commissioning costs and state and local taxes. It does not include depreciation expenses and certain non-operating items. Because we have not forecasted such depreciation expense and non-operating items, we have not made any forecast of net income, which would be the most directly comparable financial measure under generally accepted accounting principles, or GAAP. As a result, we are unable to reconcile differences between forecasts of EBITDA and net income.

(4) Excludes potential EBITDA from marketing activities.
